📌 space Application – User Guide

SPACE is an artist tracking tool used by artists and teams to manage and monitor work across:

- Shows
- Sequences
- Shots
- Tasks

It provides a **centralized view** of all assigned work and helps track progress in real time.

🎯 Key Features

📌 1. Work Tracking

- Artists can view:
    - Assigned **Shows**
    - **Sequences**

    - **Shots**
    - **Tasks**
- Displays complete task details like:
    - Status
    - Priority
    - Start & End Dates
    - Assigned Artist

🔍 2. Filtering Options

- You can filter data based on:
    - **Show-wise**
    - **Sequence-wise**
    - **Shot-wise**
- Helps quickly find specific work items.

👥 3. Artist Visibility

- Easily see:
    - **Who is working on which shot**
    - Current **progress/status**
- Useful for supervisors and coordinators.

🎬 4. Shot Details & Annotations

- Click on any **Shot** to view detailed information.
- Navigate to the **Annotation tab**:
    - View feedback
    - Review comments
    - Check updates related to the shot

📊 5. Dashboard & Insights

- Visual dashboard shows:
    - Work distribution
    - Task progress
    - Activity summary

- Helps in quick decision-making.

🧭 Tabs in SPACE

🗂️ SPACE Tab

- Main view of all tasks and shots.
- Displays production data in a structured table.

📝 ANNOTATION Tab

- Shows:
  - Comments
  - Feedback
  - Notes on shots

📽️ MOVIES Tab

- Used to:
  - View uploaded media
  - Review shot outputs

✅ Simple Workflow

1. Open SPACE
2. Filter by Show / Sequence / Shot
3. Select a Shot
4. Check Task Details
5. Go to **Annotation Tab** for feedback
6. Review outputs in **Movies Tab**

🧰 Supported Tools

You can launch the following applications:

- 🎬 **Nuke** – Compositing
- 📽️ **ShotGrid (SG)** – Production tracking

- 🧊 **Maya** – 3D modeling & animation
- 🐬 **Dolphin 3D** – Internal/3D workflows
- 🔥 **Houdini** – FX & simulations
- 🎨 **Mari** – Texture painting
- 🎯 **Mocha** – Tracking & planar tracking
- ✂️ **Silhouette** – Roto & paint
- 🎞️ **DaVinci Resolve** – Editing & color grading
- 🧱 **Blender** – 3D creation
- ⚙️ **DD Pipeline Tools** – Internal pipeline tools
- 🌐 **Firefox** – Web access / tools
